EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Donald Bird on 9/18/2006.

The application has been amended as follows:

DELETE claims 16-18.

2. The following is an examiner's statement of reasons for allowance:

Election/Restrictions

3. *Restriction to one of the following inventions is required under 35 U.S.C. 121:*

- I. *Claims 1-11, drawn to Compounds and methods of making compounds, classified in class 546, subclass 153.*
- II. *Claims 16-18, drawn to methods of use, classified in class 514, subclass 312.*

The inventions are distinct, each from the other because of the following reasons:

4. *Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with*

another materially different product or (2) the product as claimed can be used in a materially different process of using that product. See MPEP § 806.05(h). In the instant case the compounds can be used in a materially different process.

5. *Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art due to their recognized divergent subject matter, restriction for examination purposes as indicated is proper.*

6. During a telephone conversation with Donald Bird on 9/18/06 a provisional election was made without traverse to prosecute the invention of I, claims 1-11. Affirmation of this election must be made by applicant in replying to this Office action. Claims 16-18 withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention. Claims 16-18 have been deleted as being drawn to a non-elected invention (see above Examiner's Amendment).

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
